

PUBLIC TRAINING

Biodiversity Management for Business: From Risk to Resilience

Designed for sustainability and business professionals seeking practical tools to integrate biodiversity and nature-based solutions into strategy, risk management, and reporting.

Turn biodiversity risks into strategic opportunities. Embed nature into business decisions and build resilience for the future.

Biodiversity underpins the ecosystems that businesses rely on from clean water and fertile soils to climate regulation and raw materials. Yet biodiversity loss poses growing risks across operations, supply chains and markets. Increasingly, companies are expected not only to minimise their impacts but also to contribute to a nature-positive economy.

This workshop introduces learners to the essentials of biodiversity management through a business lens. It explores how organisations can assess and monitor biodiversity impacts, embed biodiversity into strategy, apply nature-based solutions (NbS) and report effectively under emerging global frameworks such as TNFD, GRI 304, and SBTN. Learners will leave with practical insights and tools to align biodiversity action with business resilience, stakeholder trust and long-term value creation.

Fees

RM 1,800 per pax

(HRD claimable | Limited seats – reserve now)

Group discounts available on-request.

Learning Outcomes

- **Understand the relationship between biodiversity, ecosystem services, and business value**, and identify organisational dependencies, risks, and opportunities related to nature.
- **Conduct biodiversity assessments** and integrate biodiversity management strategies into operations and supply chains, including the application of Nature-Based Solutions.
- **Measure and report biodiversity performance** using recognised global frameworks and anticipate emerging trends to support a nature-positive business transition.

What We Will Cover

- **Biodiversity, Ecosystems & Business Value**
Understanding ecosystem services, biodiversity risks, and business dependencies.
- **Biodiversity Assessment & Strategy Integration**
Assessing biodiversity impacts and integrating management into operations and supply chains.
- **Nature-Based Solutions & Biodiversity Reporting**
Applying nature-based solutions and reporting using global frameworks.

Modules

Topics explored in this training include:

Biodiversity and Business: Why Nature Matters

- The role of biodiversity in ecosystem services and business value, key sector risks and dependencies, and the business case for biodiversity action.

Biodiversity Assessment & Monitoring

- Conducting impact and dependency assessments across operations and value chains using tools such as TNFD LEAP, biodiversity indicators, and practical monitoring frameworks.

Strategy & Integration: Embedding Biodiversity into Business

- Setting biodiversity goals and KPIs, applying the mitigation hierarchy (avoid, minimise, restore, offset), and building partnerships with NGOs, communities, and regulators.

Exploring Nature-Based Solutions

- Understanding NBS, business applications such as mangrove restoration, watershed protection, and agroforestry, and financing approaches including biodiversity credits and ESG funds.

Reporting on Nature

- Using key reporting frameworks such as GRI 304, TNFD, SBTN, & ISSB/IFRS, with indicators to measure biodiversity performance and communicate outcomes to stakeholders & investors.

Future Outlook: Towards a Nature-Positive Economy

- Global biodiversity frameworks, emerging nature-positive strategies in business and finance, evolving regulatory expectations, and new biodiversity finance mechanisms.

PUBLIC TRAINING

Biodiversity Management for Business: From Risk to Resilience

Meet your trainer:

Surin Suksuwan

Biodiversity Consultant

Surin is an independent consultant and trainer with more than 25 years' experience in natural resources management, biodiversity conservation, and sustainability. Surin has an MSc in Biodiversity and Taxonomy of Plants from the University of Edinburgh and is a member of the IUCN World Commission on Protected Areas (WCPA). He has been involved in various projects related to biodiversity conservation and agri-commodity sustainability in Malaysia, Indonesia, Papua New Guinea, Thailand and the Philippines. Surin is a qualified lead assessor and trainer for the High Conservation Value (HCV) approach and is also a trainer accredited by the Human Resources Development Corp of Malaysia. He is also a co-founder of the Sunda Shelves bookshop which specialises in nature, culture and travel in Southeast Asia.

Tools and Resources

Participants who attend this course will receive:

- Comprehensive training materials, including full slides and key resources
- A Certificate of Completion from Fuller Academy
- Lunch and refreshments for a comfortable learning experience
- Opportunities for networking with like-minded professionals

Section E: Terms and Conditions

REGISTRATION

Course confirmation slip must be sent to Fuller Impact Sdn Bhd, no later than fourteen (14) working days before commencement of course. Fuller Impact Sdn Bhd also reserves the right to make alternative arrangements without prior notice should it be necessary to do so. Upon registering, you are deemed to have read and accepted the terms and conditions herein.

PAYMENT

Payment must be made before the commencement of the course or on the first day of the course and made payable to Fuller Impact Sdn Bhd. Official receipt will be issued once a payment has been made. A confirmation email will be sent to you at least one week before training once your application is approved.

CERTIFICATE OF COMPLETION

All participants are required to present photo identification at the point of registration prior to signing the registration list when attending the programme. Course certificate will be awarded to participants who attended no less than 80% of the course.

CANCELLATIONS

Cancellations are non-refundable. A substitute candidate may be made at no extra charge. Please provide the name, position, and IC number of the substitute at least three (3) days before the course. All cancellations must be made in writing and notified no less than seven (7) working days prior to the course commencement date. No refunds will be made for any participants who fail to show up for course.

COPYRIGHT

No part of the programme or materials may be reproduced in any form, stored in a retrieval system, transmitted by any means electronically or mechanically, photocopied, or recorded, without the prior permission of the author.

DISCLAIMER

All workshops are HRDC claimable. Please note that for Human Resource Development Corporation (HRDC) claims, an upfront payment of 30% of the total approved course fee from the HRDC grant is required. HRDC grant approval must also be obtained at least fourteen (14) days prior to the commencement of the learning programme. CPD recognition varies by professional body. Please verify with your respective body before registering.
